

## TOLL ROAD FOR FAGERAASEN FROM 1 SEPTEMBER 2022

Fageraasen Hytteområde AS has agreed with the company ONEPARK AS for a new toll solution in Fageraasen. The new solution is based on ANPR technology, meaning there is a camera that regulates all entrances and exits. Today's barriers to exit, card solution and payment machines disappear in connection with the transition to a new solution.

*The boom solution works as follows:*

Each cabin will at all times have the opportunity register three cars for free entry per toll through the barrier. The registration is done via a profile you receive. Vehicles can be changed until you pass the camera on the way up. It is also possible to register vehicles for a limited period.

Free passage is included in the annual toll, which is either invoiced directly to the cottage owner or the condominium.

By 1 August, you will receive an email from the autopay.io system via the email address you have provided as contact information to Fageråsen Hytteområde. Go to the link you receive. By following the described procedure for registration, you are ready to start using the system. For those who already have a registered profile in autopay.io, you will receive an email when the permit has been granted to your account, this email also comes from autopay.io. As many vehicles as you want can be loaded, but at any given time only three vehicles can be driven in at the same time via the barrier to achieve free passage. If the cabin owner wants more than three permits (vehicles within the barrier at the same time), these can be purchased via the ONEPARK webshop from 1 August (onepark.no).

If you arrive at the barrier and all permits have been used up, a toll will be charged. This is charged upon arrival. We have different payment solutions to pay the fee:

- *Automatic debit through registered payment card in the profile in autopay.io*
- *Pay online within 48 hours on autopay.io after arrival*
- *Invoice in the mail. Invoice fee will be added*

ONEPARK's customer service is open 24/7/365. Contact them if you have questions about registration or use. +47 22 84 92 00 [kundeservice@onepark.no](mailto:kundeservice@onepark.no)

### ABOUT ONEPARK

ONEPARK currently operates over 200 parking facilities across the country. The largest facility is Oslo Airport, which is the country's largest, with approx. 23,000 parking spaces. In recent years, the company has also provided services to private roads at Norefjell, Hafjell, Mosetertoppen (Hafjell).

The same system will be introduced on the south side of the mountain. This is administered by Trysilfjell Utmarkslag.
